Incredible but true, the city of Zaragoza was founded by the romans between 24-12 B.C. and many historical and cultural sights can be discovered nowadays.

Our Hotel Diagonal Plaza is located in the biggest logistic platform in Europe where well-known companies such as Inditex, H.P, imaginarium, BSH have their base headquarters.

Designed and built for the Expo in Zaragoza in 2008 the four stars property convinces with a clear, minimalistic and modern design and spacious rooms. The tourist can easily get to the city center and the business traveler has direct access to the companies in the platform. The hotel offers natural light conference rooms where you can hold any kind of convention or celebration. The newly opened restaurant "Goya" spoils you with fresh and deliciously prepared food.
