Where two warm seas meet at the so called "costa cálida", next to the coast of Murcia you can enjoy 3000 hours of sun a year. Long beaches and small bays are inviting you to pass a perfect vacation in Murcia. Apart from that this region is a paradise for those who love to play golf; it has more than 20 golf courses in a radius of only 50 kilometers. Murcia is called the kitchen garden of Spain since you will find a lot of different fruit and vegetable plantations in this area.

Opened in 2006 the Hotel Nelva combines modern architecture with that certain elegance. The luxurious four star property offers as well a cozy component so that you can relax in a pleasant atmosphere.

The hotel is located in a privileged area, only five minutes walking away from the historical center of Murcia with its shopping and financial district. The exhibition center is also very near to it. Not only for relaxing vacations but also for events, meetings, banquets and product presentations Hotel Nelva is the perfect location with an excellent professional service.
