The Hotel Santos Porta Fira**** is a work of the famous Japanese architect Toyo Ito, well-known for creating other designs including the extension of Barcelona's Fira Gran Vía. In 2010 the hotel won the prestigious architectural "EMPORIS AWARD" for being the best skyscraper in the world.

The modern and cutting edge building which simulates a lotus flower, has 24 floors and a height of 110 meters thanks to which it is recognized as one of the architectural icons of the city and part of the Barcelona skyline.

Our clients can expect 311 modern designed and spacious rooms, the restaurant "Spiral" offering finest cuisine and a wellness area. Our meeting rooms with a highly multifunctional plenary room offering a well-lit space of 800 m², which can be divided by panels and a height of 5 meters, are making the Hotel Porta Fira ideal for hosting any type of event. Thanks to its features but also the proximity to the airport El Prat and the fairgrounds the new property of the Santos Hotels range has a major attraction for the world of business.
